Motore | Engine - 1.5 BlueHDi 16V YH01 / DV5 16V

Il motore PSA DV5 1.5 BlueHDi 16V, progettato per ridurre le emissioni e migliorare i consumi grazie a sistemi come EGR e DPF, soffre di un problema significativo: l'accumulo di depositi di fuliggine. Questi depositi, altamente abrasivi, contaminano l'olio motore e causano danni permanenti alle componenti interne, in particolare all'usura della catena di distribuzione e degli alberi a camme.

The PSA DV5 1.5 BlueHDi 16V engine, designed to reduce emissions and improve fuel efficiency through systems like EGR and DPF, suffers from a significant issue: the buildup of soot deposits. These highly abrasive deposits contaminate the engine oil and cause permanent damage to internal components, particularly leading to wear of the timing chain and camshafts.

Il nuovo supporto albero camme è stato modificato aumentando le dimensioni e dotato di una catena di distribuzione passo di 8 mm invece del precedente disegno da 7 mm.

The new camshaft support has been redesigned with increased dimensions and is now equipped with a timing chain with an 8 mm pitch, replacing the previous 7 mm design.

Identificazione delle due varianti | Identification of the two variants

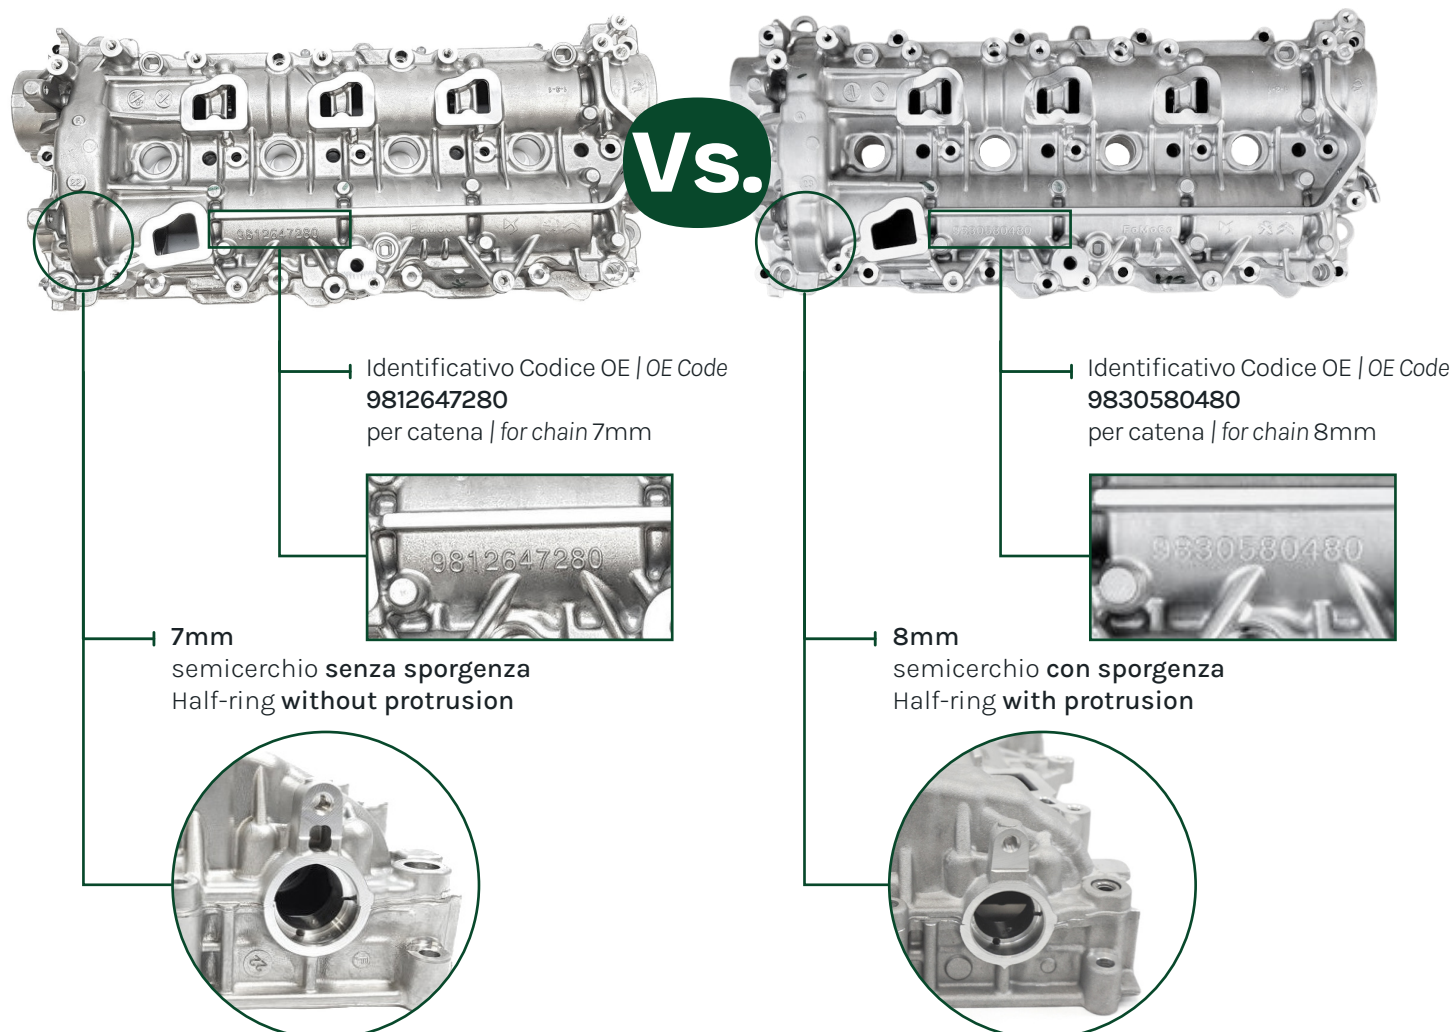

TIPO VECCHIO | OLD TYPE

Per catena / for chain 7mm

TIPO NUOVO | NEW TYPE

Per catena / for chain 8mm

COPERCHIO SUPPORTO ALBERI A CAMME | CAMSHAFT SUPPORT COVER

Identificazione delle due varianti | Identification of the two variants

TIPO VECCHIO | OLD TYPE

Per catena / for chain 7mm

TIPO NUOVO | NEW TYPE

Per catena / for chain 8mm

CATENA DI DISTRIBUZIONE | CHAIN SET

CATENA 7MM / 22 INNESTI / 44 MAGLIE
7 MM CHAIN / 22 SPROCKET TEETH / 44 LINKS

CATENA 8MM / 21 INNESTI / 42 MAGLIE
8 MM CHAIN / 21 SPROCKET TEETH / 42 LINKS

ALBERO A CAMME | CAMSHAFT

L'aggiornamento da 7 mm a 8 mm e la conseguente modifica dei relativi ingranaggi alberi a camme, consentono una maggiore resistenza alla trazione.

The upgrade from 7 mm to 8 mm, along with the corresponding modification of the camshaft gears, allows for greater tensile strength.

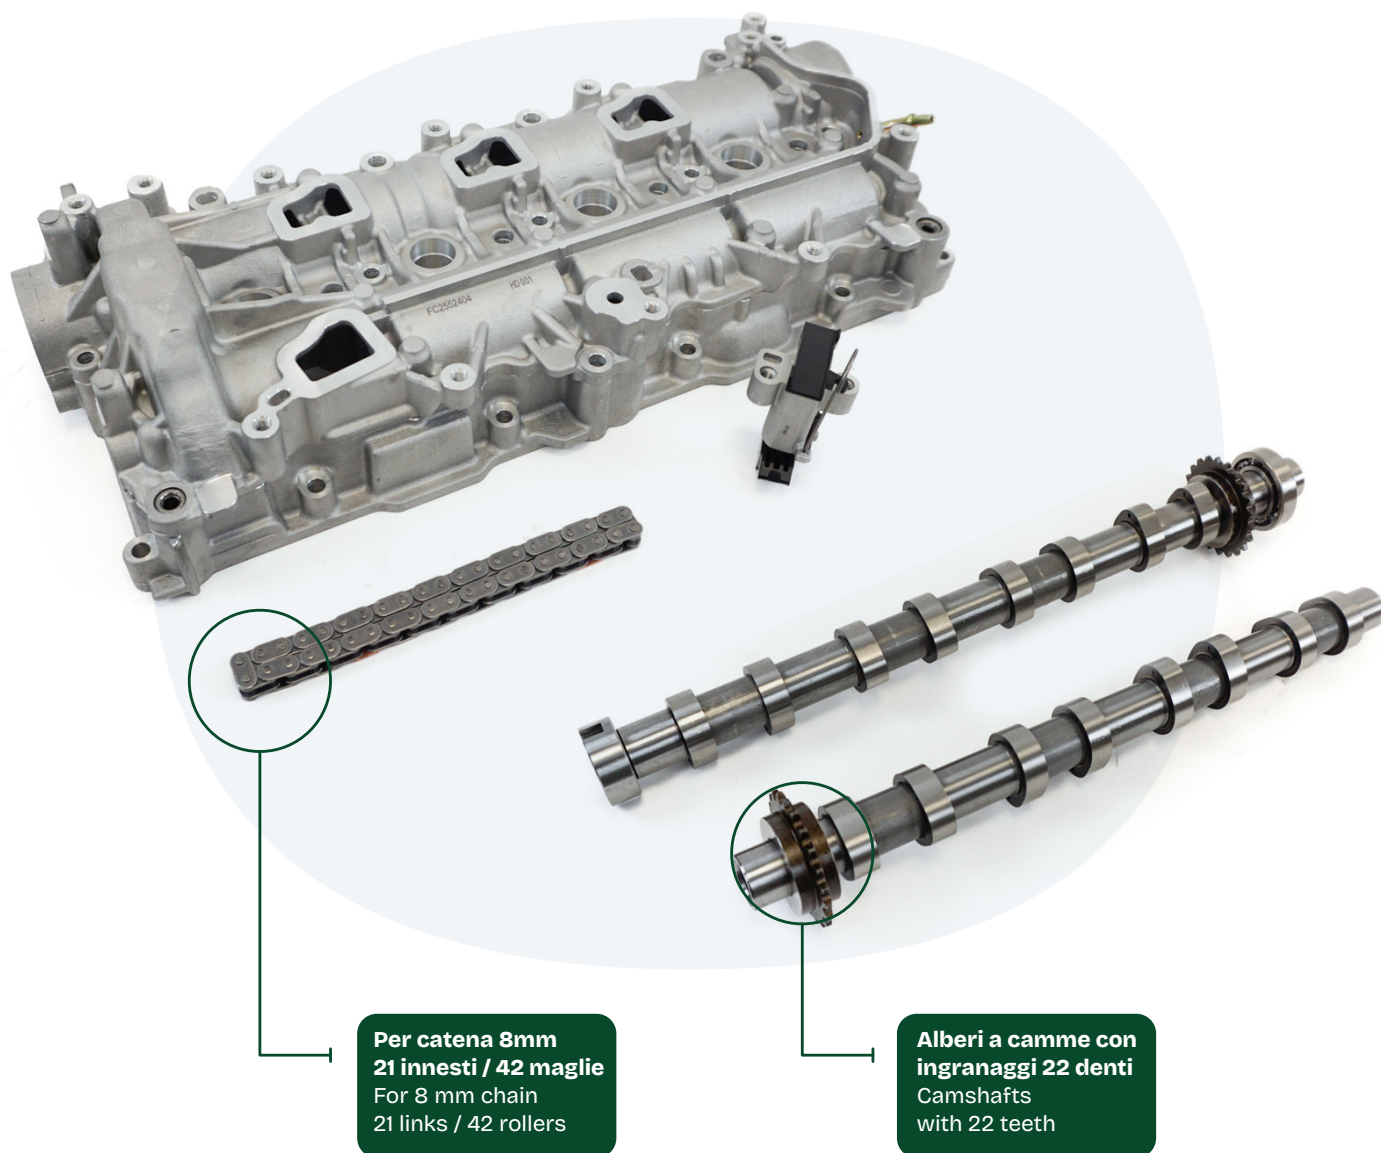

PER CATENA 7MM / INGRANAGGIO 21 DENTI
FOR 7 MM CHAIN / 21-TEETH GEAR

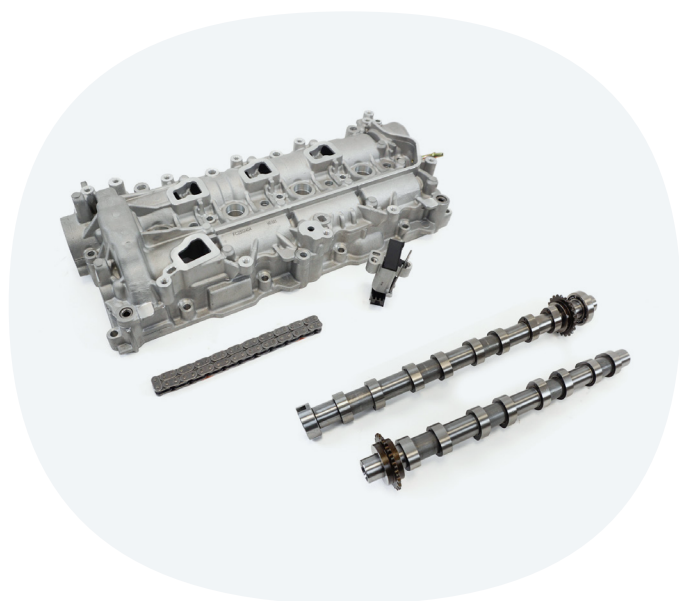

PER CATENA 8MM / INGRANAGGIO 22 DENTI
FOR 8 MM CHAIN / 22-TEETH GEAR

Novità Prodotto | New product

Kit albero a camme | Camshaft kit 1.5 BlueHDi 16V YH01 / DV5 16V
con catena modificata a 8 mm! | with upgraded 8 mm chain!
